

Daily Morning Worship Wednesday 22nd April

Today in worship we thought about World Earth Day.

We thought about how we can care for our world and what small acts we can do to make a difference to be good stewards of the world.

We have been given some plans by Jeff Davis, our chair of governors to look after and nurture during this time.

This sunflower is already 48cm high!

We have talked about what we need to do to look after this sunflower plant. It needs water, sunshine, a sheltered place to grow and something to support it.

So we will plant it in our Secret Garden area. Children in school will have the responsibility of looking after the sunflower each day.

I wonder how tall it will be when we are all back together as St Mary's community?

Maybe you can estimate?

Dear God,

We thank you for our sunflower plant.

Help us to look after our plant and to make sure that it grows to its fullness.

Help us to work together to care for the world and all life.

Like the stick supporting the plant, help us to support each other at this time,

Amen

An Baya

Together we can make a difference

EVERY DAY NEEDS TO BE EARTH DAY
